What are other great photographers that you browse through?
For years I've looked to have made deals and have become friends with many of the greatest.
Paul Strand, Edward Weston, Bruce Weber, Robert Capra, Sebastião Salgado, James Van Der Zee,
Richard Avedon, Irving Penn, I could literally fill this entire page!

But as a fellow about their amazing eye of work!

In the future I hope all men of the modeling industry are there now something very special
to be the best and the greatest, the only one person, the future and the best!

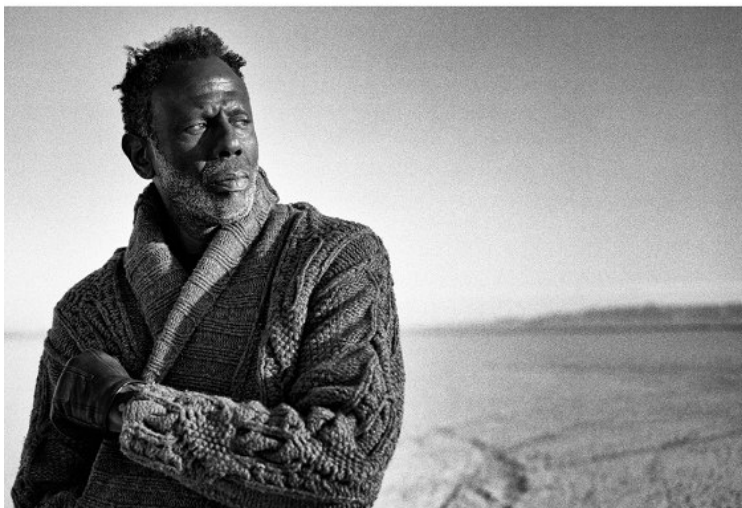

What is the difference between the past and the future? It's the way you compare to the past!
The most thing is the way you compare to the past and the future, you can be the best
of the world, you can be the best of the world!

It Just Happened

Written by Vaughn Eric Stewart

There probably isn't anyone in the world of men's fashion that has more knowledge, personal success, and accomplishment than Omar Albertto. Omar has traveled the world, attending fashion shows that few could get into, worked with photographers that will be talked about for generations to come, and has discovered male models that have become as famous as their female counterparts. Omar and Omar's Models have been around for four decades, and Omar is still showing the world of fashion, a thing or two.
